

NEW HAMPSHIRE DRUG CONTROL UPDATE

This report reflects significant trends, data, and major issues relating to drugs in the State of New Hampshire.

New Hampshire At-a-Glance:

- In 2009-2010, New Hampshire was one of the top ten states for rates of drug-use in several categories, including: past-month illicit drug use among persons age 12 or older; past-month illicit drug use among young adults age 18-25; past-month marijuana use among persons age 12 or older; past-month marijuana use among young adults age 18-25; past-year non-medical use of pain relievers among young adults age 18-25; illicit drug dependence among persons age 12 or older; and illicit drug dependence among young adults age 18-25.
Source: National Survey on Drug Use and Health 2009-2010.
- Approximately 12.15 percent of New Hampshire residents reported past-month use of illicit drugs; the national average was 8.82 percent.
- In 2009, the rate of drug-induced deaths in New Hampshire was higher than the national average.
- Other opiates are the most commonly cited drugs among primary drug treatment admissions in New Hampshire.

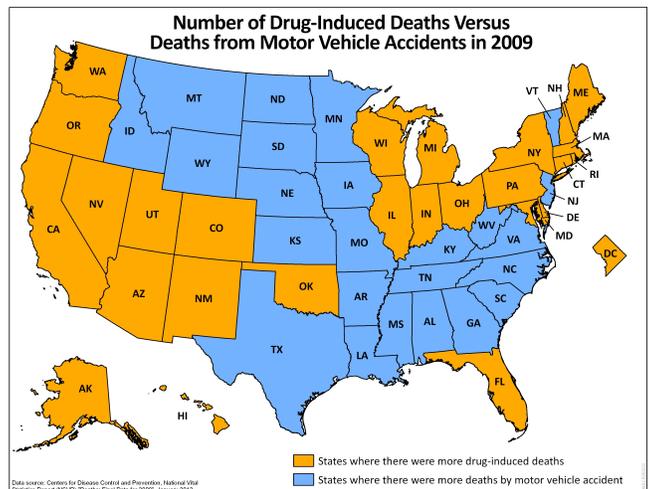

Drug Use Trends in New Hampshire

Drug Use in New Hampshire: The National Survey on Drug Use and Health (NSDUH) provides national and state-level data on the use of tobacco, alcohol, illicit drugs (including non-medical use of prescription drugs), and mental health in the United States. In the most recent Survey, 12.15 percent of New Hampshire residents reported using illicit drugs in the past month. The national average was 8.82 percent. Additionally, 4.65 percent of New Hampshire residents reported using an illicit drug other than marijuana in the past month (the national average was 3.6 percent).

Drug-Induced Deaths: As a direct consequence of drug use, 172 persons died in New Hampshire in 2009. This is compared to the number of persons in New Hampshire who died from motor vehicle accidents (114) and firearms (89) in the same year. New Hampshire drug-induced deaths (13.0 per 100,000 population) exceeded the national rate (12.8 per 100,000).

Note: The Treatment Episode Data Set (TEDS) only displays data from 1992-2010 for New Hampshire

Prescription Drug Abuse

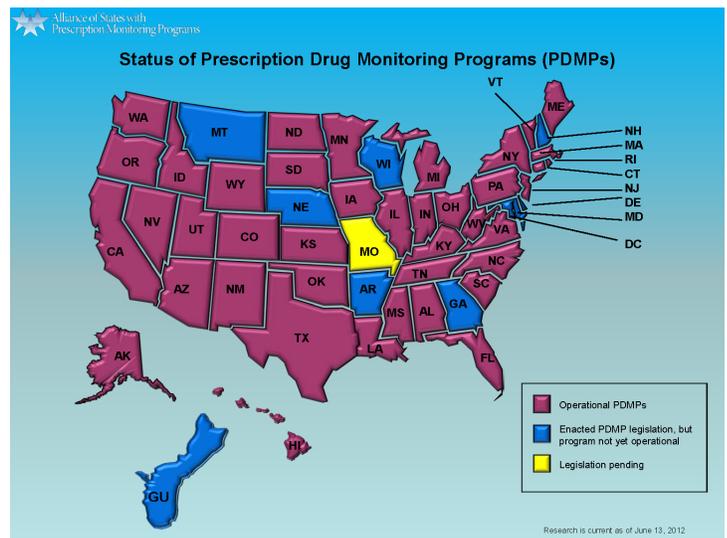

ONDCP's Efforts to Combat Prescription Drug Abuse

Prescription drug abuse is the fastest-growing drug problem in the Nation. The Administration's Prescription Drug Abuse Prevention Plan entitled "Epidemic: Responding to America's Prescription Drug Abuse Crisis," provides a national framework for reducing prescription drug diversion and abuse by supporting the expansion of state-based prescription drug monitoring programs; recommending secure, more convenient, and environmentally responsible disposal methods to remove expired, unused, or unneeded medications from the home; supporting education for patients and healthcare providers; and reducing the prevalence of pill mills and doctor shopping through enforcement efforts.

State-Level Action: Prescription Drug Monitoring Programs (PDMPs)

PDMPs track controlled substances prescribed by authorized practitioners and dispensed by pharmacies. PDMPs serve a number of functions, including assisting in patient care, providing early warning signs of drug epidemics, and detecting drug diversion and insurance fraud. Forty-one have operational PDMP programs established by state legislation and funded by a combination of state and Federal funds. An additional 9 states and territories have a prescription drug monitoring program authorized, but not yet operational. Adequate resourcing, increasing the number of states with operational PDMPs, and development of state-to-state information-sharing systems would significantly help reduce prescription drug diversion and abuse.

The New Hampshire Legislature enacted SB286 on June 12, 2012 to establish New Hampshire's PDMP, the **Controlled Drug Prescription Health and Safety Program Operation**. The program will be administered and implemented by the state's Board of Pharmacy. Once operational, it will be monitoring controlled substances in Schedules II-IV.

State-Level Action: Drug Take-Back Programs

A comprehensive plan to address prescription drug abuse must include proper disposal of unused, unneeded, or expired medications. Providing individuals with a secure and convenient way to dispose of controlled substances will help prevent diversion and abuse of these substances and demonstrate sound environmental stewardship. Federal rulemaking is underway and will further enhance the viability and scope of state and community take-back programs. In the meantime, states are encouraged to work with the DEA to conduct additional take-back events and educate the public about safe and effective drug return and disposal.

Drugged Driving

ONDCP Action on Drugged Driving

In 2007, the National Highway Traffic Safety Administration (NHTSA) found that one in eight weekend, nighttime drivers tested positive for illicit drugs. According to recent Fatal Accident Reporting System (FARS) data, one in three motor vehicle fatalities (33 percent) with known drug test results tested positive for drugs in 2009. Recognizing this growing problem, ONDCP is working to raise awareness of the dangers of drugged driving, provide increased training to law enforcement in identifying drugged drivers, and encourage states to consider *Per Se* laws to facilitate effective enforcement and prosecution of those who drive with drugs in their systems.

State-Level Action: Enacting *Per Se* Standards for Impairment

Although all 50 states have laws against drugged driving, law enforcement often lacks adequate tools to enforce and prosecute drugged driving. ONDCP encourages states to develop and implement *Per Se* standards that make it illegal to drive a vehicle after taking illegal drugs. This is the same standard used successfully for 12 million commercial drivers in the United States over the past two decades. *Per Se* standards have been adopted in 17 states.

New Hampshire does not have a *Per Se* standard. Under Section 265-A:2 of the Revised Statutes Annotated Title XXI Motor Vehicles, no person shall drive or attempt to drive or operate a vehicle while under the influence of intoxicating liquor or any controlled drug or any combination of intoxicating liquor and controlled drugs. Proof Required: that the defendant was driving or attempting to drive a vehicle in New Hampshire, and while driving the vehicle, the defendant was under the influence of any controlled drug.

ONDCP Support for Community-Based Prevention

National Anti-Drug Media Campaign

ONDCP's National Youth Anti-Drug Media Campaign provides consistent and credible messages (including those in Native American and Alaska Native communities) to young people about drug abuse and its consequences. *Above the Influence*, a major component of the Campaign, informs and inspires youth to reject illicit drugs and drinking via a mix of national and local advertising vehicles. The Campaign, in close partnership with local community-based, youth-serving organizations, also conducts teen-targeted *Above the Influence* activities to assist local groups with youth drug prevention work in their respective communities.

The Drug Free Communities (DFC) Program

Recognizing that local problems require local solutions, Drug Free Communities (DFC) organizations mobilize communities to prevent youth drug use by creating local data-driven strategies to reduce drug use in the community. ONDCP works to foster the growth of new coalitions and support existing coalitions through the DFC grants. In FY 2012, the following New Hampshire coalitions received grants from ONDCP:

- Bridging the Gaps-Rochester Community Coalition for Alcohol and Drug Prevention
- CADY, Inc. (Communities for Alcohol and Drug Free Youth)
- Community Alliance for Teen Safety
- Communities United for Substance Abuse Prevention
- Dover Coalition for Youth
- Drug Advisory Council Coalition/Community Safeguard
- Franklin Mayor's Drug and Alcohol Abuse Task Force
- Hinsdale Prevention Coalition
- Monadnock Alcohol and Drug Abuse Coalition
- North Country Health Consortium/Coos County Coalition for Substance Abuse Prevention
- Raymond Coalition for Youth
- Winchester We've Got Your Back

ONDCP High Intensity Drug Trafficking Area (HIDTA) County Info

The High Intensity Drug Trafficking Areas (HIDTA) program enhances and coordinates drug control efforts among local, state, and Federal law enforcement agencies. In designated HIDTA counties, the program provides agencies with coordination, equipment, technology, and additional resources to combat drug trafficking and its harmful consequences in critical regions of the United States.

New England HIDTA

New Hampshire County: Hillsborough

- New Hampshire continues to benefit from the innovative and timely collocation of the HIDTA ISC and the Commonwealth of Massachusetts Fusion Center. The combined operation provides an enhanced and increased level of available information for all states participating in the New England HIDTA.
- Additionally, the NE HIDTA is developing a strategy and increasing law enforcement training opportunities to address the serious issue of Drugged Driving.

Federal Grant Awards Available to Reduce Drug Use in the State of New Hampshire

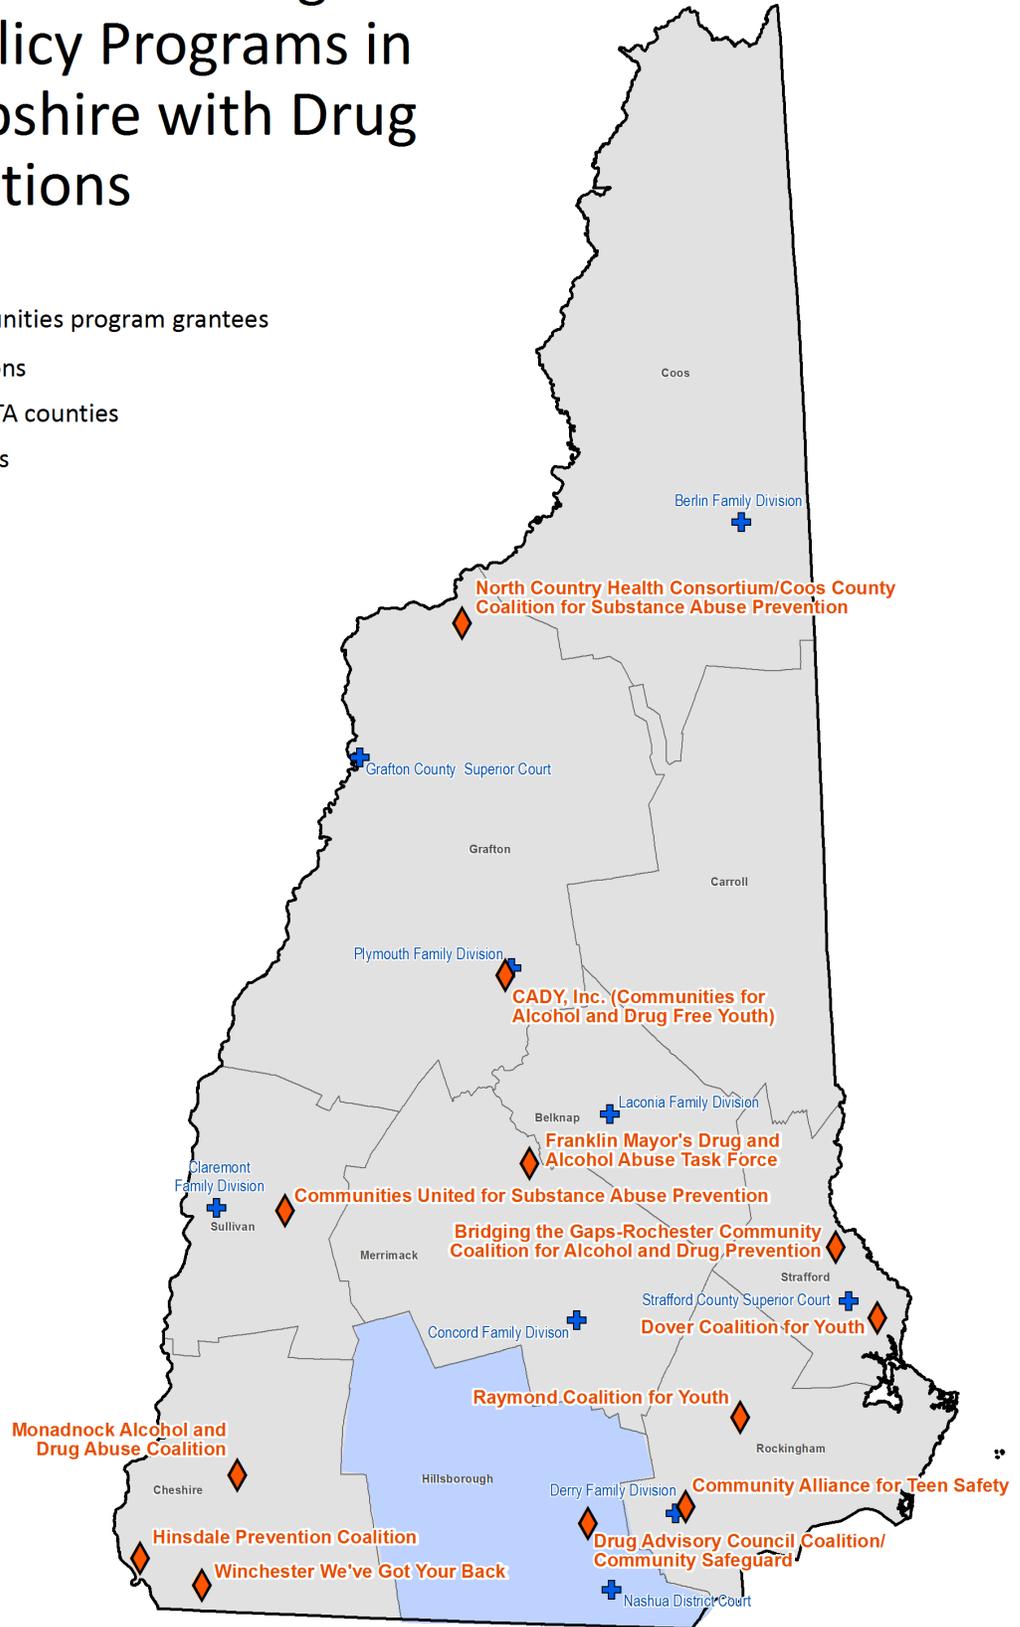

The Federal Government awards competitive grants to help states in their efforts to reduce drug use and its harmful consequences. In FY 2012, direct support was provided to state and local governments, schools, and law enforcement organizations in your state for this purpose. Some Federal grant programs are dedicated to reducing drug use and its harmful consequences while others can be used for reducing drug use or for other purposes. In FY 2012, your State received support under the grant programs shown below.

Federal Grant Awards That Help Reduce the Availability and Misuse Of Drugs In The State of NH	
Department / Office / Program Name	2012
Department of Agriculture	\$ 2,296,278
National Institute of Food and Agriculture	
Cooperative Extension Service	\$ 2,296,278
Department of Education	\$ 5,643,199
Office of Elementary and Secondary Education	
Twenty-First Century Community Learning Centers	\$ 5,643,199
Department of Health and Human Services	\$ 33,763,711
Administration for Children and Families	
Promoting Safe and Stable Families	\$ 707,636
Transitional Living for Homeless Youth	\$ 600,000
Centers For Medicare and Medicaid Services	
Medical Assistance Program - Grants to States for Medicaid To Treat Substance Abuse	\$ 6,165,568
National Institutes Of Health	
Alcohol Research Programs	\$ 1,347,450
Drug Abuse and Addiction Research Programs	\$ 10,241,560
Substance Abuse and Mental Health Services Administration	
Block Grants for Prevention and Treatment of Substance Abuse	\$ 6,670,567
Projects for Assistance in Transition from Homelessness (PATH)	\$ 300,000
Substance Abuse and Mental Health Services Projects of Regional and National Significance	\$ 6,832,776
Substance Abuse and Mental Health Services-Access to Recovery	\$ 898,154
Department of Housing and Urban Development	\$ 5,544,194
Community Planning and Development	
Emergency Solutions Grant Program	\$ 934,813
Shelter Plus Care	\$ 303,852
Supportive Housing Program	\$ 4,305,529
Department Of Justice	\$ 4,164,994
Office of Justice Programs	
Edward Byrne Memorial Justice Assistance Grant Program	\$ 1,388,108
Edward Byrne Memorial State and Local Law Enforcement Assistance Discretionary Grants Program	\$ 564,886
Juvenile Accountability Block Grants	\$ 1,464,358
Juvenile Justice and Delinquency Prevention Allocation to States	\$ 400,000
Residential Substance Abuse Treatment for State Prisoners	\$ 47,642
Second Chance Act Prisoner Reentry Initiative	\$ 300,000
